INVESTIGATION, REMEDIATION AND PROTECTION OF LAND RESOURCES

Hardback. Book Condition: New. Not Signed; Description: Firmly based in soil science, this book addresses the fundamental science and engineering of land degradation and rehabilitation. It begins with a discussion of natural ground profiles dealing with soil science and the underlying geology, the functions of natural ground and ground engineering properties. The author then introduces three basic mechanisms of ground degradation are introduced: erosion, chemical degradation and physical degradation. He covers remediation, including strategies and techniques to investigate the ground...

This book may be really worth a read through, and a lot better than other. It is really basic but excitement inside the 50 % in the pdf. I realized this pdf from my dad and i encouraged this publication to learn.
