The Livestock Emergency Guidelines and Standards (LEGS) are a set of international guidelines and standards for the design, implementation and assessment of livestock interventions to assist people affected by humanitarian crises. LEGS expands the commitment in the Sphere handbook - the Humanitarian Charter and Minimum Standards in Disaster Response - towards supporting livelihood assets, by presenting clear and practical options for supporting livestock during and following disasters. LEGS provides guidance on the identification of appropriate livestock responses, followed by detailed information on a number of interventions, namely: destocking, veterinary services, the provision of feed, the provision of water, livestock shelter and settlement, and restocking.
