Government Operations: Mail Processing Productivity Measurement Is Inadequate: Ggd-77-83

By -

BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 32 pages. Dimensions: 9.7in. x 7.4in. x 0.1in.The Management Operating Data System is currently being used by the U. S. Postal Service to measure productivity in its mail processing operations. The Postal Service is not realizing the full benefits of a productivity measurement system because its system generally does not meet the information needs of local managers for whom the system was designed; is producing reports which are not being reviewed by upper level management to determine the relative efficiency of the various offices and to make necessary budget changes and cost reductions more equitable; and does not provide hard statistical data to measure the effectiveness of its Manpower Scheduling and Staffing Program which was designed to increase productivity in individual offices. This item ships from La Vergne,TN. Paperback.

Reviews

A new e book with a brand new standpoint. I am quite late in start reading this one, but better then never. I discovered this ebook from my i and dad advised this publication to understand.
-- Jada Franecki II

Here is the very best book i have got read through until now. I could possibly comprehended everything using this composed e publication. You will not sense monotony at whenever you want of your time (that's what catalogues are for concerning should you ask me).
